## REPORT TO THE PRESIDENT

The PRESIDENT,  
*The White House.*

SIR: This is a report on amendments to the Code of Fair Competition for the Tanning Extract Industry which was approved by you on March 29, 1934.

The purpose of the amendment to the definition of "Industry" in Article I of the Code is to include within the Industry the manufacture, liquefying and/or dissolving for sale of tanning extract from extracts.

The amendment to Article II, Section 6 is the standard provision on assessments providing for compulsory contributions to the expense of administrating the Code.

The amendments to Articles IV, and V, revise labor provisions to conform to the standard administration draft of such provisions.

The amendment to Section 4, Article VI provides for the submission of such statistical information to Federal and/or State agencies as the Board may deem necessary for the purposes recited in Section 3 (a) of the Act. It further provides that nothing contained in the Code shall relieve any member of any existing obligations to furnish reports to Federal and/or State agencies.

The amendment to Article VIII provides for the addition of a new Section 2 whereby the Code Authority for the purpose of assisting the Code Authorities of allied industries in the adjustment of labor disputes and complaints within such industries shall consider the advisability of creating a Joint Industrial Relations Board.

The Deputy Administrator in his final report to us on said amendments of said Code having found as herein set forth and on the basis of all the proceedings in this matter:

The Board finds that:

(a) The amendments of said Code and the Code as amended are well designed to promote the policies and purposes of Title I of the National Industrial Recovery Act including the removal of obstructions to the free flow of interstate and foreign commerce which tend to diminish the amount thereof, and will provide for the general welfare by promoting the organization of industry for the purpose of cooperative action of labor and management under adequate governmental sanction and supervision, by eliminating unfair competitive practices, by promoting the fullest possible utilization of the present productive capacity of industries, by avoiding undue restriction of production (except as may be temporarily required), by increasing the consumption of industrial and agricultural products through increasing purchasing power, by reducing and relieving unemployment, by improving standards of labor, and by otherwise rehabilitating industry.

(b) The Code as amended complies in all respects with the pertinent provisions of said Title of said Act, including without limitation sub-section (a) of Section 3, sub-section (a) of Section 7 and sub-section (b) of Section 10 thereof.

(c) The Code empowers the Code Authority to propose the amendments on behalf of the Industry as a whole.

(d) The amendments and the Code as amended are not designed to and will not permit monopolies or monopolistic practices.

(e) The amendments and the Code as amended are not designed to and will not eliminate or oppress small enterprises and will not operate to discriminate against them.

(f) Those engaged in other steps of the economic process have not been deprived of the right to be heard prior to approval of said amendments.

For these reasons these amendments have been approved.

Respectfully,

NATIONAL INDUSTRIAL RECOVERY BOARD,  
By G. A. LYNCH, *Administrative Officer*.

OCTOBER 9, 1934.
